

PESL Course Outline - 7 Sessions

A 7-Week course may be appropriate for the client who presents with fewer than the 19 problem areas that are addressed in the standard 13-week format.

There are six weeks of direct instruction in this outline - half the amount included in the standard format, with fewer than half of the targets typically addressed in the full course. Therefore, this format could be adjusted and used to offer a lower-cost, introductory-level and/or less time-consuming course. If it is used for those purposes, the instructor might focus on additional targets instead of final presentations in Session 6 and 7.

Session 1 Introduction/Orientation Target 1 Practice Program demo/instructions	Session 5 Review previous targets Target 7 Common Sentences & Phrases (Units 6-11) Reading (Diamond Jim Brady - 2nd part) Record and review audio reference
